

AMSA International Day Report – Japan

◆Name	Health Promotion Campaign
◆Purpose	Extend the knowledge of diabetes mellitus to public
◆Who & Whom	From medical students to public
◆What & How	<p>We did “short sentence competition about diabetes mellitus” for AMSA International Day (AID). This event is comprised of 3 steps.</p> <p>1st- making short sentences to educate public about DM</p> <p>2nd-upload these sentence to the web (especially SNS)</p> <p>3rd-share the article.</p> <p>※This step is most important because sharing article enables public (especially the friends of AMSA members, they includes without medical students, for example friends go to another faculty or local friends) to read these article. It can be education of public.</p> <p>4th-Prize the 1 winner and share again the article of top 3 persons. The winner gets low fat confectionery.</p>
◆Where & When	2 places: Kyushu(Feb 23rd), Okayama(Feb 8th).
◆Participants	51 (Total) =18 (Okayama) + 33 (Kyushu)
◆Constructive Feedback	<p><b>【Good Point】</b></p> <p>We could make good atmosphere through sharing the each own works. Each works stimulate their creativity.</p> <p><b>【Improvement Point】</b></p> <p>If we made the sample of works, everyone could make their works easier.</p>
